

## ENVIRONMENTAL POLICY

As Birinci Otomotiv, we consider environmental sustainability as one of our core values in our efforts to achieve our strategic goals in line with our vision and mission.

In this direction, we act with the goal and belief of preventing our environmental impacts that may occur as a result of our production activities, creating the necessary awareness and culture to ensure environmental sustainability with all our employees, including senior management, and ensuring continuous improvement and development.

As the Birinci Otomotiv;

- To ensure compliance with national and international legislation, administrative regulations and sectoral obligations related to the environment,
- To ensure the efficient use of natural resources and energy with the awareness that the resources in the world are not infinite and to promote the use of renewable energy sources,

To consider national and international emission targets in line with climate change mitigation and decarbonization goals, to carry out activities for monitoring, reporting, and reducing greenhouse gas emissions to protect air quality, and to control noise emissions.

- To develop circular economy solutions in accordance with the waste hierarchy in all its activities with the Zero Waste principle, to ensure the reduction and separation of waste at its source, to ensure its recovery and reuse, to reduce the amount of waste sent to disposal and the environmental impacts during disposal and to ensure the responsible and safe management of chemicals within this scope.
- To set measurable targets for the correct and efficient use of energy, water and natural resources with a sustainability approach and to develop reduction methods,
- To develop processes to reduce water consumption and reuse water for the protection of water resources,
- To support the principles of sustainable development and integrate them into our activities to the maximum extent,
- To evaluate the impacts of our activities on biodiversity, to support projects aimed at protecting and enhancing animal welfare and natural habitats, and to ensure the preservation of soil quality.
- We accept and undertake to measure the environmental awareness of all our stakeholders and to carry out monitoring activities, to create an environmentally sensitive corporate culture through training organisation.

Yönetim Kurulu Başkanı  
Yakup BİRİNCİ
